

Labs

Press release
Brooklyn, June 2018

Labs New Artists | New York
On view June 13-24, 2018

Red Hook Labs, Brooklyn, New York

After last year's highly successful exhibition, Labs New Artists is back for its second year. Labs New Artists II exhibition will include a group of international photographers, unrepresented by galleries or agencies, selected by a jury of industry leaders and professionals. To give the artists selected for the Labs New Artists II exhibition continued support, each of our jurors has agreed to mentor an artist for the year following the show.

Red Hook Labs is dedicated to supporting this impressive group of artists, showing personal bodies of work that apply fresh techniques and aesthetics to the photographic medium. The exhibition explores contemporary cultural aesthetics, and presents provocative image making. Labs New Artists celebrates the achievements of this diverse ensemble of exceptional visionaries.

Labs Gallery extends our mission of giving opportunity to and supporting emerging artists through our exhibition and print sales program. All Labs profits go to our 501(c)3, Red Hook Labs Education and Jobs Initiative.
